SURPRISINGLY MODERN

A tile series which exudes familiarity yet is surprisingly modern: equally suitable for interior and exterior areas, the artisan character displayed by the Craft wall series draws on the depth and transparency of its high-gloss glaze. Compositions of alkaline earths, fluxing agents and metal oxides in combination with the clay body can give rise to particularly vibrant, intensive colorations and typical surface structures under open flame guidance.

The colors provide scope for design and unusual aesthetics –
for facades and interiors alike. The authentic character of
Craft is underlined by its classic strip tile format which attributes
areas a charming rhythm and sets expressive highlights with
its hand-crafted look and a lively play on colors.
